Entertainment and relax

Scene keyboards are available with common scene settings for typical home activities.

Pico remote controls are ideal for controlling lights, curtains and audio, so individual, from any part of your home.

Scheduling: you can program lights and shades to automatically adjust at set times of day.

Geofencing: controls lights based on your location.

This feature can turn lights on for you when you arrive home and notify you if you've left lights on when you leave.

Smart Away: randomly turns lights on and off in the evening, so it looks like you're home, even when you're not.

Audio and Video Illusion Pack

Imagine a TV that fits seamlessly into your life, enhancing every experience with a picture that's as beautiful as its design. It's all about you and your entertainment, delivering an experience that's both effortless and exciting.

Sony's 4K HDR TVs are compatible with latest HDR movies and shows. You'll see a greater range of brightness with a wider colour spectrum, and exceptional contrast, clarity and detail that goes beyond 4K.

Lutron Roller Blinds

Roller Blinds System

Lutron roller shades create the perfect light for any space or activity with an offering of sheer, dim-out, and blackout fabrics. Choose a sheer to maintain view while diffusing UV rays that may damage furnishings.

Dim-out fabrics provide privacy while blackout fabrics are 100% opaque to eliminate all daylight

The new era of control

The control will be carried out with the new Lutron wireless keyboards. Thanks to this technology it is possible to install the control elements once the house is finished, and decide at that time the most convenient places to place them.

This product is available in a wide range of finishes for adapt to any style of decoration or architecture.

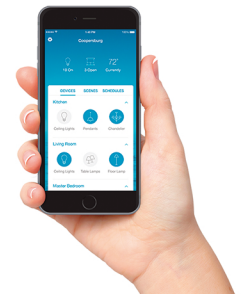

Lutron Connect App

The residences will be delivered with an environment that meets the most common needs of customers. This setting can be easily changed from the Lutron application connect, where new devices can be added and modify the scenes.

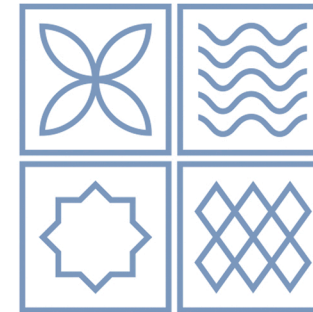

Your home will welcome you

Enable geofencing in the application to automatically turn on or off your lights or the weather when you leave or approach home. Also receive notifications on your mobile device if you have left the lights on.
